

Trash Collection

The City of Memphis has control of the trash pickup service for our neighborhood. The trash must be IN the containers and not just sitting beside them. Drivers will not get out of the trucks to load trash that will not fit in your container. If you generate enough trash to overflow your container please consider getting an additional container. The City also offers curbside pickup of large bulky items such as old furniture, limbs and mattresses. You may place these items at the curb for your regularly scheduled trash collection day. **If they do not pick the items up please call 901.636.6500 or 311 to arrange pickup.**

This is a City of Memphis task and not the HOA rules.
